

## Sustainability Policy

Our vision is to establish a legacy of sustained economic growth, social responsibility and environmental stewardship reflective of a premier energy company.

**To these ends, NiSource is committed to:**

- Delivering sustainable economic growth;
- Enhancing our stakeholders' quality of life; and
- Serving as responsible stewards of natural and environmental resources.

**To fulfill this commitment, we will:**

Promote Strong, Stable Communities

- Invest in clean, safe and reliable energy infrastructures in the communities we serve;
- Actively engage in stakeholder processes; and
- Be actively involved in communities we serve.

Implement Customer-Focused Solutions

- Help customers address energy costs, make smarter energy choices, and lower impacts on the environment; and
- Couple investments with effective regulatory and commercial actions that promote affordable, clean energy.

Steward the Environment

- Reduce our impact on the environment through pollution prevention and reduction programs; and
- Implement innovative conservation approaches.

Assure an Engaged, Aligned and Transparent Sustainability Approach

- Establish goals, measures, and standards that are tracked and evaluated for success;
- Govern ourselves in a manner that is responsive to the interests of shareholders and other investors; and
- Publicly report on our sustainability efforts.
