

NiSource Inc.

2024 CDP Corporate Questionnaire 2024

Word version

Important: this export excludes unanswered questions

This document is an export of your organization's CDP questionnaire response. It contains all data points for questions that are answered or in progress. There may be questions or data points that you have been requested to provide, which are missing from this document because they are currently unanswered. Please note that it is your responsibility to verify that your questionnaire response is complete prior to submission. CDP will not be liable for any failure to do so.

[Terms of disclosure for corporate questionnaire 2024 - CDP](#)

Contents

C1. Introduction

(1.1) In which language are you submitting your response?

Select from:

English

(1.2) Select the currency used for all financial information disclosed throughout your response.

Select from:

USD

(1.3) Provide an overview and introduction to your organization.

(1.3.2) Organization type

Select from:

Publicly traded organization

(1.3.3) Description of organization

NiSource Inc. is an energy holding company under the Public Utility Holding Company Act of 2005 whose primary subsidiaries are fully regulated natural gas and electric utility companies, serving approximately 3.8 million customers in six states. NiSource is the successor to an Indiana corporation organized in 1987 under the name of NIPSCO Industries, Inc., which changed its name to NiSource Inc. on April 14, 1999. On November 7, 2022, we announced our intention to seek a minority interest investor in NIPSCO. We entered into an agreement with Blackstone on June 17, 2023, in furtherance of this goal. On December 31, 2023, the NIPSCO Minority Interest Transaction closed. At closing, NIPSCO Holdings I contributed all its membership interests in NIPSCO in exchange for an 80.1% controlling membership interest and Blackstone contributed 2.16 billion in cash in exchange for a 19.9% membership interest in NIPSCO Holdings II, respectively. NIPSCO Holdings II owns all the membership interests in NIPSCO. NiSource's principal subsidiaries include NiSource Gas Distribution Group, Inc. (a holding company that owns Columbia of Kentucky, Columbia of Maryland, Columbia of Ohio, Columbia of Pennsylvania, and Columbia of Virginia), and a controlling interest in NIPSCO (a gas and electric company). NiSource derives substantially all of its revenues and earnings from the operating results of these rate-regulated businesses. This report is made as of the date hereof and contains "forward-looking statements". The forward-looking statements are subject to risks and uncertainties. All forward-looking statements should be considered in the context of the risk and other factors detailed from time to time in NiSource Inc.'s Securities and Exchange Commission (SEC) filings. Further, material risks and opportunities are located in NiSource Inc.'s SEC filings and no inclusion of risks and opportunities within this report are to be construed as different from what is currently in our SEC filings.

[Fixed row]

(1.4) State the end date of the year for which you are reporting data. For emissions data, indicate whether you will be providing emissions data for past reporting years.

	End date of reporting year	Alignment of this reporting period with your financial reporting period	Indicate if you are providing emissions data for past reporting years
	12/31/2023	Select from: <input checked="" type="checkbox"/> Yes	Select from: <input checked="" type="checkbox"/> No

[Fixed row]

(1.4.1) What is your organization's annual revenue for the reporting period?

5505400000

(1.5) Provide details on your reporting boundary.

	Is your reporting boundary for your CDP disclosure the same as that used in your financial statements?
	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(1.6) Does your organization have an ISIN code or another unique identifier (e.g., Ticker, CUSIP, etc.)?

ISIN code - bond

(1.6.1) Does your organization use this unique identifier?

Select from:

No

ISIN code - equity

(1.6.1) Does your organization use this unique identifier?

Select from:

No

CUSIP number

(1.6.1) Does your organization use this unique identifier?

Select from:

No

Ticker symbol

(1.6.1) Does your organization use this unique identifier?

Select from:

Yes

(1.6.2) Provide your unique identifier

NI

SEDOL code

(1.6.1) Does your organization use this unique identifier?

Select from:

No

LEI number

(1.6.1) Does your organization use this unique identifier?

Select from:

No

D-U-N-S number

(1.6.1) Does your organization use this unique identifier?

Select from:

No

Other unique identifier

(1.6.1) Does your organization use this unique identifier?

Select from:

No

[Add row]

(1.7) Select the countries/areas in which you operate.

Select all that apply

United States of America

(1.16) In which part of the electric utilities value chain does your organization operate?

Electric utilities value chain

- Distribution
- Electricity generation
- Transmission

Other divisions

- Battery storage
- Gas storage, transmission and distribution
- Smart grids/demand response

(1.16.1) For your electricity generation activities, provide details of your nameplate capacity and electricity generation specifics for each technology employed.

Coal - Hard

(1.16.1.1) Own or control operations which use this power generation source

Select from:

- Yes

(1.16.1.5) Comment

The information for this question is available in our 2023 EEI and AGA Quantitative Data, available at <https://www.nisource.com/docs/librariesprovider2/sustainability-archives/2023/2023-eei-and-aga-quantitative-data.xlsx>.

Lignite

(1.16.1.1) Own or control operations which use this power generation source

Select from:

- No

Oil

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Gas

(1.16.1.1) Own or control operations which use this power generation source

Select from:

Yes

Sustainable biomass

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Other biomass

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Waste (non-biomass)

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Nuclear

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Fossil-fuel plants fitted with carbon capture and storage

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Geothermal

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Hydropower

(1.16.1.1) Own or control operations which use this power generation source

Select from:

Yes

Wind

(1.16.1.1) Own or control operations which use this power generation source

Select from:

Yes

Solar

(1.16.1.1) Own or control operations which use this power generation source

Select from:

Yes

Marine

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Other renewable

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Other non-renewable

(1.16.1.1) Own or control operations which use this power generation source

Select from:

No

Total

(1.16.1.1) Own or control operations which use this power generation source

Select from:

Yes

[Fixed row]

(1.24.1) Have you mapped where in your direct operations or elsewhere in your value chain plastics are produced, commercialized, used, and/or disposed of?

	Plastics mapping
	<i>Select from:</i> <input checked="" type="checkbox"/> No, and we do not plan to within the next two years

[Fixed row]

C2. Identification, assessment, and management of dependencies, impacts, risks, and opportunities

(2.1) How does your organization define short-, medium-, and long-term time horizons in relation to the identification, assessment, and management of your environmental dependencies, impacts, risks, and opportunities?

Short-term

(2.1.1) From (years)

0

(2.1.3) To (years)

5

(2.1.4) How this time horizon is linked to strategic and/or financial planning

Guidance range

Medium-term

(2.1.1) From (years)

6

(2.1.3) To (years)

10

(2.1.4) How this time horizon is linked to strategic and/or financial planning

Long-range plan

Long-term

(2.1.1) From (years)

11

(2.1.2) Is your long-term time horizon open ended?

Select from:

No

(2.1.3) To (years)

20

(2.1.4) How this time horizon is linked to strategic and/or financial planning

Scenario planning

[Fixed row]

(2.2) Does your organization have a process for identifying, assessing, and managing environmental dependencies and/or impacts?

	Process in place	Dependencies and/or impacts evaluated in this process
	Select from: <input checked="" type="checkbox"/> Yes	Select from: <input checked="" type="checkbox"/> Both dependencies and impacts

[Fixed row]

(2.2.1) Does your organization have a process for identifying, assessing, and managing environmental risks and/or opportunities?

	Process in place	Risks and/or opportunities evaluated in this process	Is this process informed by the dependencies and/or impacts process?
	Select from: <input checked="" type="checkbox"/> Yes	Select from: <input checked="" type="checkbox"/> Both risks and opportunities	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(2.2.2) Provide details of your organization’s process for identifying, assessing, and managing environmental dependencies, impacts, risks, and/or opportunities.

Row 1

(2.2.2.1) Environmental issue

Select all that apply

- Climate change

(2.2.2.2) Indicate which of dependencies, impacts, risks, and opportunities are covered by the process for this environmental issue

Select all that apply

- Impacts
- Risks
- Opportunities

(2.2.2.3) Value chain stages covered

Select all that apply

- Direct operations
- Upstream value chain
- Downstream value chain

(2.2.2.4) Coverage

Select from:

- Full

(2.2.2.9) Time horizons covered

Select all that apply

- Short-term
- Medium-term
- Long-term

(2.2.2.10) Integration of risk management process

Select from:

- Integrated into multi-disciplinary organization-wide risk management process

(2.2.2.13) Risk types and criteria considered

Acute physical

- Heavy precipitation (rain, hail, snow/ice)
- Storm (including blizzards, dust, and sandstorms)

Chronic physical

- Increased severity of extreme weather events

Policy

- Changes to national legislation

Technology

- Transition to lower emissions technology and products

(2.2.2.16) Further details of process

Our enterprise risk management process – overseen by our Risk Management Committee – facilitates the assessment of transitional and physical climate risk.

Row 2

(2.2.2.1) Environmental issue

Select all that apply

- Water

(2.2.2.2) Indicate which of dependencies, impacts, risks, and opportunities are covered by the process for this environmental issue

Select all that apply

- Impacts
- Risks
- Opportunities

(2.2.2.3) Value chain stages covered

Select all that apply

- Direct operations
- Upstream value chain
- Downstream value chain

(2.2.2.4) Coverage

Select from:

- Full

(2.2.2.9) Time horizons covered

Select all that apply

- Short-term
- Medium-term
- Long-term

(2.2.2.10) Integration of risk management process

Select from:

- Integrated into multi-disciplinary organization-wide risk management process

(2.2.2.13) Risk types and criteria considered

Acute physical

- Drought
- Heavy precipitation (rain, hail, snow/ice)

Chronic physical

- Water stress

(2.2.2.16) Further details of process

Water-related risks are identified throughout the year using data from internal monitoring of water quality and water levels. Meetings with internal staff provide an opportunity for risk to be shared and appropriate responses developed. In addition, a corporate Risk Management Committee meets regularly to assess and respond to risks that may impact the company. Risks are documented and managed at a team, operating company, business unit or corporate levels in accordance with our enterprise risk management (ERM) framework. Also, the Environmental, Social, Nominating and Governance Committee of the NiSource Board of Directors oversees programs, performance and risks relative to environmental and sustainability matters, including water-related issues. The Committee meets a minimum of four times annually. The charter for the Committee can be found on the NiSource website at <https://investors.nisource.com/corporate-governance/>.

[Add row]

(2.4) How does your organization define substantive effects on your organization?

Risks

(2.4.1) Type of definition

Select all that apply

- Qualitative
- Quantitative

(2.4.6) Metrics considered in definition

Select all that apply

- Frequency of effect occurring
- Time horizon over which the effect occurs
- Likelihood of effect occurring

(2.4.7) Application of definition

Those material risks and opportunities that pose the greatest financial and strategic risk to our business are sub-categorized (business, operational and financial; industry; and legal risks and opportunities) and our responses to these are summarized in our annual report on Form 10-K, per SEC guidelines. For our risks we rate, review and manage against several dimensions: risk impact, risk likelihood, risk velocity and our management preparedness for that risk should it happen. We manage risk through a multi-faceted enterprise risk management process with oversight by the Risk Management Committee that requires regular communication, judgment and knowledge of specialized products and markets. Our senior management takes an active role in the risk management process and has developed policies and procedures that require specific administrative and business functions to assist in the identification, assessment and control of various risks. These may include, but are not limited to market, operational, financial, compliance and strategic risk types. In recognition of the increasingly varied and complex nature of the energy business, our risk management process, policies and procedures continue to evolve and are subject to ongoing review and modification.

Opportunities

(2.4.1) Type of definition

Select all that apply

- Qualitative
- Quantitative

(2.4.6) Metrics considered in definition

Select all that apply

- Frequency of effect occurring
- Time horizon over which the effect occurs
- Likelihood of effect occurring

(2.4.7) Application of definition

Those material risks and opportunities that pose the greatest financial and strategic risk to our business are sub-categorized (business, operational and financial; industry; and legal risks and opportunities) and our responses to these are summarized in our annual report on Form 10-K, per SEC guidelines. For our risks we rate, review and manage against several dimensions: risk impact, risk likelihood, risk velocity and our management preparedness for that risk should it happen. We manage risk through a multi-faceted enterprise risk management process with oversight by the Risk Management Committee that requires regular communication, judgment and knowledge of specialized products and markets. [Add row]

(2.5) Does your organization identify and classify potential water pollutants associated with its activities that could have a detrimental impact on water ecosystems or human health?

(2.5.1) Identification and classification of potential water pollutants

Select from:

- Yes, we identify and classify our potential water pollutants

(2.5.2) How potential water pollutants are identified and classified

Water pollutants are identified and classified using data from internal monitoring of water quality, as required by the U.S. Environmental Protection Agency and the Indiana Department of Environmental Management.

[Fixed row]

C3. Disclosure of risks and opportunities

(3.1) Have you identified any environmental risks which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future?

	Environmental risks identified
Climate change	Select from: <input checked="" type="checkbox"/> Yes, both in direct operations and upstream/downstream value chain
Water	Select from: <input checked="" type="checkbox"/> Yes, both in direct operations and upstream/downstream value chain

[Fixed row]

(3.1.1) Provide details of the environmental risks identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future.

Climate change

(3.1.1.9) Organization-specific description of risk

See pages 13-14 and 18-31 of our 2023 Form 10-K, available at https://s1.q4cdn.com/829981032/files/doc_financials/2023/q4/NI-2023-12-31-10K-Final.pdf, for a discussion of our risks, including physical and transition climate risks.

[Add row]

(3.2) Within each river basin, how many facilities are exposed to substantive effects of water-related risks, and what percentage of your total number of facilities does this represent?

Row 1

(3.2.1) Country/Area & River basin

United States of America

Other, please specify :Kankakee River

(3.2.2) Value chain stages where facilities at risk have been identified in this river basin

Select all that apply

Direct operations

(3.2.3) Number of facilities within direct operations exposed to water-related risk in this river basin

1

(3.2.4) % of your organization's total facilities within direct operations exposed to water-related risk in this river basin

Select from:

1-25%

(3.2.8) % organization's annual electricity generation that could be affected by these facilities

Select from:

26-50%

(3.2.11) Please explain

Operation of the R.M. Schahfer Generating Station

Row 2

(3.2.1) Country/Area & River basin

United States of America

Other, please specify :Wabash River

(3.2.2) Value chain stages where facilities at risk have been identified in this river basin

Select all that apply

Direct operations

(3.2.3) Number of facilities within direct operations exposed to water-related risk in this river basin

1

(3.2.4) % of your organization's total facilities within direct operations exposed to water-related risk in this river basin

Select from:

1-25%

(3.2.8) % organization's annual electricity generation that could be affected by these facilities

Select from:

26-50%

(3.2.11) Please explain

Operation of Sugar Creek Generating Station

Row 3

(3.2.1) Country/Area & River basin

United States of America

Other, please specify :Tippecanoe River

(3.2.2) Value chain stages where facilities at risk have been identified in this river basin

Select all that apply

- Direct operations

(3.2.3) Number of facilities within direct operations exposed to water-related risk in this river basin

2

(3.2.4) % of your organization's total facilities within direct operations exposed to water-related risk in this river basin

Select from:

- 26-50%

(3.2.8) % organization's annual electricity generation that could be affected by these facilities

Select from:

- Less than 1%

(3.2.11) Please explain

Operation of Norway and Oakdale Hydroelectric Plants

Row 4

(3.2.1) Country/Area & River basin

United States of America

- Other, please specify :Trail Creek and Lake Michigan

(3.2.2) Value chain stages where facilities at risk have been identified in this river basin

Select all that apply

- Direct operations

(3.2.3) Number of facilities within direct operations exposed to water-related risk in this river basin

1

(3.2.4) % of your organization’s total facilities within direct operations exposed to water-related risk in this river basin

Select from:

1-25%

(3.2.8) % organization’s annual electricity generation that could be affected by these facilities

Select from:

1-25%

(3.2.11) Please explain

Operation of Michigan City Generating Station

[Add row]

(3.3) In the reporting year, was your organization subject to any fines, enforcement orders, and/or other penalties for water-related regulatory violations?

	Water-related regulatory violations
	Select from: <input checked="" type="checkbox"/> No

[Fixed row]

(3.5) Are any of your operations or activities regulated by a carbon pricing system (i.e. ETS, Cap & Trade or Carbon Tax)?

Select from:

No, and we do not anticipate being regulated in the next three years

(3.6) Have you identified any environmental opportunities which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future?

	Environmental opportunities identified
Climate change	Select from: <input checked="" type="checkbox"/> Yes, we have identified opportunities, and some/all are being realized
Water	Select from: <input checked="" type="checkbox"/> Yes, we have identified opportunities, and some/all are being realized

[Fixed row]

(3.6.1) Provide details of the environmental opportunities identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future.

Climate change

(3.6.1.8) Organization specific description

See pages 12-23 of our 2024 ESG Report, available at https://www.nisource.com/docs/librariesprovider2/nisource-documents/nisource_2024-esg_report.pdf, for a discussion of opportunities.

[Add row]

C4. Governance

(4.1) Does your organization have a board of directors or an equivalent governing body?

(4.1.1) Board of directors or equivalent governing body

Select from:

Yes

(4.1.2) Frequency with which the board or equivalent meets

Select from:

More frequently than quarterly

(4.1.3) Types of directors your board or equivalent is comprised of

Select all that apply

Executive directors or equivalent

Independent non-executive directors or equivalent

(4.1.4) Board diversity and inclusion policy

Select from:

Yes, and it is publicly available

(4.1.5) Briefly describe what the policy covers

The Environmental, Social, Nominating and Governance (ESN&G) Committee ("the Committee") Charter contains authority and responsibilities of the Committee. The charter is available at <https://investors.nisource.com/corporate-governance/>. Within the charter, under Committee Authority and Responsibilities, item 3 states as follows: "The Committee, to the extent it deems necessary or appropriate and in furtherance of its purpose, shall... Identify individuals qualified to become members of the Board, consistent with the criteria approved by the Board, taking into account skills and experience that the Board as a whole should possess, including relevant business, academic, industry and financial expertise (including financial literacy), as well as racial, ethnic and gender diversity."

[Fixed row]

(4.1.1) Is there board-level oversight of environmental issues within your organization?

	Board-level oversight of this environmental issue
Climate change	Select from: <input checked="" type="checkbox"/> Yes
Water	Select from: <input checked="" type="checkbox"/> Yes
Biodiversity	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(4.1.2) Identify the positions (do not include any names) of the individuals or committees on the board with accountability for environmental issues and provide details of the board's oversight of environmental issues.

Climate change

(4.1.2.1) Positions of individuals or committees with accountability for this environmental issue

Select all that apply

- Board-level committee

(4.1.2.2) Positions' accountability for this environmental issue is outlined in policies applicable to the board

Select from:

- Yes

(4.1.2.3) Policies which outline the positions' accountability for this environmental issue

Select all that apply

- Other policy applicable to the board, please specify :Board charter

(4.1.2.4) Frequency with which this environmental issue is a scheduled agenda item

Select from:

- Scheduled agenda item in every board meeting (standing agenda item)

(4.1.2.5) Governance mechanisms into which this environmental issue is integrated

Select all that apply

- Reviewing and guiding the assessment process for dependencies, impacts, risks, and opportunities
- Other, please specify :Review and evaluate the Company's strategy, efforts, programs, policies, practices and performance with respect to environmental, social, sustainability and climate change matters.

(4.1.2.7) Please explain

See the NiSource Inc. Environmental, Social, Nominating and Governance Committee Charter, available at <https://investors.nisource.com/corporate-governance/>.

Water

(4.1.2.1) Positions of individuals or committees with accountability for this environmental issue

Select all that apply

- Board-level committee

(4.1.2.2) Positions' accountability for this environmental issue is outlined in policies applicable to the board

Select from:

- Yes

(4.1.2.3) Policies which outline the positions' accountability for this environmental issue

Select all that apply

- Other policy applicable to the board, please specify :Board charter

(4.1.2.4) Frequency with which this environmental issue is a scheduled agenda item

Select from:

- Sporadic – agenda item as important matters arise

(4.1.2.5) Governance mechanisms into which this environmental issue is integrated

Select all that apply

- Reviewing and guiding the assessment process for dependencies, impacts, risks, and opportunities
- Other, please specify :Review and evaluate the Company's strategy, efforts, programs, policies, practices and performance with respect to environmental, social, sustainability and climate change matters.

(4.1.2.7) Please explain

See the NiSource Inc. Environmental, Social, Nominating and Governance Committee Charter, available at <https://investors.nisource.com/corporate-governance/>.

Biodiversity

(4.1.2.1) Positions of individuals or committees with accountability for this environmental issue

Select all that apply

- Board-level committee

(4.1.2.2) Positions' accountability for this environmental issue is outlined in policies applicable to the board

Select from:

- Yes

(4.1.2.3) Policies which outline the positions' accountability for this environmental issue

Select all that apply

- Other policy applicable to the board, please specify :Board charter

(4.1.2.4) Frequency with which this environmental issue is a scheduled agenda item

Select from:

- Sporadic – agenda item as important matters arise

(4.1.2.5) Governance mechanisms into which this environmental issue is integrated

Select all that apply

- Reviewing and guiding the assessment process for dependencies, impacts, risks, and opportunities
- Other, please specify :Review and evaluate the Company’s strategy, efforts, programs, policies, practices and performance with respect to environmental, social, sustainability and climate change matters.

(4.1.2.7) Please explain

See the NiSource Inc. Environmental, Social, Nominating and Governance Committee Charter, available at <https://investors.nisource.com/corporate-governance/>.
[Fixed row]

(4.2) Does your organization’s board have competency on environmental issues?

	Board-level competency on this environmental issue
Climate change	Select from: <input checked="" type="checkbox"/> Yes
Water	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(4.3) Is there management-level responsibility for environmental issues within your organization?

	Management-level responsibility for this environmental issue
Climate change	Select from: <input checked="" type="checkbox"/> Yes
Water	Select from: <input checked="" type="checkbox"/> Yes
Biodiversity	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(4.3.1) Provide the highest senior management-level positions or committees with responsibility for environmental issues (do not include the names of individuals).

Climate change

(4.3.1.1) Position of individual or committee with responsibility

Executive level

- Other C-Suite Officer, please specify :Executive Vice President and Group President of Utilities

(4.3.1.2) Environmental responsibilities of this position

Dependencies, impacts, risks and opportunities

- Assessing environmental dependencies, impacts, risks, and opportunities
- Assessing future trends in environmental dependencies, impacts, risks, and opportunities
- Managing environmental dependencies, impacts, risks, and opportunities

(4.3.1.4) Reporting line

Select from:

- Reports to the Chief Executive Officer (CEO)

(4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- Quarterly

(4.3.1.6) Please explain

Our Executive Vice President and Group President of Utilities reported to the CEO and reports out to the Environmental, Social, Nominating and Governance Committee at regularly scheduled meetings.

Water

(4.3.1.1) Position of individual or committee with responsibility

Executive level

- Other C-Suite Officer, please specify

(4.3.1.2) Environmental responsibilities of this position

Dependencies, impacts, risks and opportunities

- Assessing environmental dependencies, impacts, risks, and opportunities
- Assessing future trends in environmental dependencies, impacts, risks, and opportunities
- Managing environmental dependencies, impacts, risks, and opportunities

(4.3.1.4) Reporting line

Select from:

- Reports to the Chief Executive Officer (CEO)

(4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- Quarterly

(4.3.1.6) Please explain

Our Executive Vice President and Group President of Utilities reported to the CEO and reports out to the Environmental, Social, Nominating and Governance Committee at regularly scheduled meetings.

Biodiversity

(4.3.1.1) Position of individual or committee with responsibility

Committee

- Other committee, please specify :Environmental, Social, Nominating and Governance Committee

(4.3.1.2) Environmental responsibilities of this position

Dependencies, impacts, risks and opportunities

- Assessing environmental dependencies, impacts, risks, and opportunities
- Assessing future trends in environmental dependencies, impacts, risks, and opportunities
- Managing environmental dependencies, impacts, risks, and opportunities

(4.3.1.4) Reporting line

Select from:

- Reports to the board directly

(4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- As important matters arise

(4.3.1.6) Please explain

Our Environmental, Social, Nominating and Governance Committee reviews and evaluates our strategy, efforts, programs, policies, practices and performance with respect to environmental, social, sustainability and climate change matters.

Climate change

(4.3.1.1) Position of individual or committee with responsibility

Committee

- Risk committee

(4.3.1.2) Environmental responsibilities of this position

Dependencies, impacts, risks and opportunities

- Assessing environmental dependencies, impacts, risks, and opportunities
- Assessing future trends in environmental dependencies, impacts, risks, and opportunities
- Managing environmental dependencies, impacts, risks, and opportunities

(4.3.1.4) Reporting line

Select from:

- Other, please specify :Our Risk Management Committee , which is made up of members of our executive leadership team, is responsible for oversight of our risk management process.

(4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- Annually

(4.3.1.6) Please explain

Our Risk Management Committee, which is made up of members of our executive leadership team, is responsible for oversight of our risk management process. Enterprise Risk Management is at least an annual review, but the risks reported and discussed in the RMC Committee are brought to the Board and various committees more frequently than annually.

Climate change

(4.3.1.1) Position of individual or committee with responsibility

Executive level

- Chief Executive Officer (CEO)

(4.3.1.2) Environmental responsibilities of this position

Dependencies, impacts, risks and opportunities

- Managing environmental dependencies, impacts, risks, and opportunities

(4.3.1.4) Reporting line

Select from:

- Reports to the board directly

(4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- As important matters arise

(4.3.1.6) Please explain

Our CEO is ultimately responsible for the management of our executive leadership team.

Water

(4.3.1.1) Position of individual or committee with responsibility

Committee

- Risk committee

(4.3.1.2) Environmental responsibilities of this position

Dependencies, impacts, risks and opportunities

- Assessing environmental dependencies, impacts, risks, and opportunities
- Assessing future trends in environmental dependencies, impacts, risks, and opportunities
- Managing environmental dependencies, impacts, risks, and opportunities

(4.3.1.4) Reporting line

Select from:

- Other, please specify :Our Risk Management Committee, composed of members of our executive leadership team, is responsible for oversight of our risk management process.

(4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- As important matters arise

(4.3.1.6) Please explain

Our Risk Management Committee, which is made up of members of our executive leadership team, is responsible for oversight of our risk management process. Enterprise Risk Management is at least an annual review, but the risks reported and discussed in the RMC Committee are brought to the Board and various committees more frequently than annually.

[Add row]

(4.5) Do you provide monetary incentives for the management of environmental issues, including the attainment of targets?

Climate change

(4.5.1) Provision of monetary incentives related to this environmental issue

Select from:

Yes

(4.5.3) Please explain

Please see our 2024 Proxy Statement (pages 44-46) for more details: https://s1.q4cdn.com/829981032/files/doc_financials/2023/ar/nisource-2024-proxy-website-version-final.pdf

Water

(4.5.1) Provision of monetary incentives related to this environmental issue

Select from:

No, and we do not plan to introduce them in the next two years

[Fixed row]

(4.5.1) Provide further details on the monetary incentives provided for the management of environmental issues (do not include the names of individuals).

Climate change

(4.5.1.1) Position entitled to monetary incentive

Senior-mid management

Other senior-mid manager, please specify :Directors and above

(4.5.1.2) Incentives

Select all that apply

Shares

(4.5.1.3) Performance metrics

Emission reduction

- Reduction in absolute emissions

(4.5.1.4) Incentive plan the incentives are linked to

Select from:

- Long-Term Incentive Plan, or equivalent, only (e.g. contractual multi-year bonus)

(4.5.1.5) Further details of incentives

One component of our long-term incentive (LTI) is environmental impact, as measured by a greenhouse gas emission reduction goal for a three-year performance period.

(4.5.1.6) How the position's incentives contribute to the achievement of your environmental commitments and/or climate transition plan

This keeps us on track to achieve our publicly announced GHG reduction targets.

[Add row]

(4.6) Does your organization have an environmental policy that addresses environmental issues?

	Does your organization have any environmental policies?
	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(4.6.1) Provide details of your environmental policies.

Row 1

(4.6.1.1) Environmental issues covered

Select all that apply

- Climate change

(4.6.1.2) Level of coverage

Select from:

- Organization-wide

(4.6.1.3) Value chain stages covered

Select all that apply

- Direct operations

(4.6.1.4) Explain the coverage

Please see our ESG-related policies, including our Biodiversity Commitment, Climate Change Policy, Environmental Policy, and Sustainability Policy, available at <https://www.nisource.com/company/sustainability/reports-and-policies>.

(4.6.1.5) Environmental policy content

Environmental commitments

- Commitment to comply with regulations and mandatory standards

Additional references/Descriptions

- Reference to timebound environmental milestones and targets

(4.6.1.7) Public availability

Select from:

- Publicly available

(5.1.1.8) Timeframes covered

Select all that apply

- 2040

(5.1.1.10) Assumptions, uncertainties and constraints in scenario

Our scenario analysis from the 2021 NIPSCO Integrated Resource Plan (IRP) included a net-zero power sector target and economy-wide decarbonization by 2040.

Climate change

(5.1.1.1) Scenario used

Climate transition scenarios

- IEA SDS

(5.1.1.3) Approach to scenario

Select from:

- Qualitative and quantitative

(5.1.1.4) Scenario coverage

Select from:

- Organization-wide

(5.1.1.5) Risk types considered in scenario

Select all that apply

- Policy
- Market

(5.1.1.6) Temperature alignment of scenario

Select from:

- 1.6°C - 1.9°C

(5.1.1.8) Timeframes covered

Select all that apply

- 2050

(5.1.1.10) Assumptions, uncertainties and constraints in scenario

Refer to page 15 of our 2024 ESG Report for further information.

[Add row]

(5.1.2) Provide details of the outcomes of your organization’s scenario analysis.

Climate change

(5.1.2.1) Business processes influenced by your analysis of the reported scenarios

Select all that apply

- Other, please specify

(5.1.2.2) Coverage of analysis

Select from:

- Business division

(5.1.2.3) Summarize the outcomes of the scenario analysis and any implications for other environmental issues

Please see our 2021 NIPSCO Integrated Resource Plan for results on our climate-related scenario analysis. (<https://www.nipsco.com/our-company/about-us/regulatory-information/irp>)

[Fixed row]

(5.3) Have environmental risks and opportunities affected your strategy and/or financial planning?

(5.3.1) Environmental risks and/or opportunities have affected your strategy and/or financial planning

Select from:

- Yes, both strategy and financial planning

(5.3.2) Business areas where environmental risks and/or opportunities have affected your strategy

Select all that apply

- Products and services
- Upstream/downstream value chain
- Investment in R&D

Operations

[Fixed row]

(5.5) Does your organization invest in research and development (R&D) of low-carbon products or services related to your sector activities?

(5.5.1) Investment in low-carbon R&D

Select from:

Yes

(5.5.2) Comment

See information about our innovation partnerships on page 20 of the NiSource 2024 ESG Report, available at https://www.nisource.com/docs/librariesprovider2/nisource-documents/nisource_2024-esg_report.pdf.

[Fixed row]

(5.5.7) Provide details of your organization's investments in low-carbon R&D for your sector activities over the last three years.

Row 1

(5.5.7.1) Technology area

Select from:

Other, please specify :Low-Carbon Resources Initiative (LCRI), Coalition for Renewable Natural Gas, and investment in Energy Capital Ventures (ECV)

(5.5.7.6) Explain how your R&D investment in this technology area is aligned with your climate commitments and/or climate transition plan

See information about our innovation partnerships on page 20 of the NiSource 2024 ESG Report, available at https://www.nisource.com/docs/librariesprovider2/nisource-documents/nisource_2024-esg_report.pdf.

[Add row]

(5.10) Does your organization use an internal price on environmental externalities?

	Use of internal pricing of environmental externalities	Environmental externality priced
	<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select all that apply</i> <input checked="" type="checkbox"/> Carbon

[Fixed row]

(5.10.1) Provide details of your organization's internal price on carbon.

Row 1

(5.10.1.1) Type of pricing scheme

Select from:

- Shadow price

(5.10.1.2) Objectives for implementing internal price

Select all that apply

- Drive energy efficiency
- Drive low-carbon investment
- Identify and seize low-carbon opportunities
- Navigate regulations
- Stress test investments

(5.10.1.3) Factors considered when determining the price

Select all that apply

- Existing or pending legislation

(5.10.1.5) Scopes covered

Select all that apply

- Scope 1
- Scope 3, Category 11 - Use of sold products

(5.10.1.10) Minimum actual price used (currency per metric ton CO2e)

9.59

(5.10.1.11) Maximum actual price used (currency per metric ton CO2e)

16.53

(5.10.1.12) Business decision-making processes the internal price is applied to

[Fixed row]

(5.11.5) Do your suppliers have to meet environmental requirements as part of your organization’s purchasing process?

	Suppliers have to meet specific environmental requirements related to this environmental issue as part of the purchasing process	Policy in place for addressing supplier non-compliance
Climate change	Select from: <input checked="" type="checkbox"/> No, and we do not plan to introduce environmental requirements related to this environmental issue within the next two years	Select from: <input checked="" type="checkbox"/> Yes, we have a policy in place for addressing non-compliance

[Fixed row]

(5.11.9) Provide details of any environmental engagement activity with other stakeholders in the value chain.

	Type of stakeholder	Type and details of engagement
Climate change	<i>Select from:</i> <input checked="" type="checkbox"/> Customers	Education/Information sharing <input checked="" type="checkbox"/> Educate and work with stakeholders on understanding and measuring exposure to environmental risks <input checked="" type="checkbox"/> Share information on environmental initiatives, progress and achievements Innovation and collaboration <input checked="" type="checkbox"/> Align your organization's goals to support customers' targets and ambitions <input checked="" type="checkbox"/> Engage with stakeholders to advocate for policy or regulatory change

[Add row]

C6. Environmental Performance - Consolidation Approach

(6.1) Provide details on your chosen consolidation approach for the calculation of environmental performance data.

	Consolidation approach used
Climate change	<i>Select from:</i> <input checked="" type="checkbox"/> Operational control
Water	<i>Select from:</i> <input checked="" type="checkbox"/> Operational control
Biodiversity	<i>Select from:</i> <input checked="" type="checkbox"/> Operational control

[Fixed row]

C7. Environmental performance - Climate Change

(7.1) Is this your first year of reporting emissions data to CDP?

Select from:

No

(7.1.2) Has your emissions accounting methodology, boundary, and/or reporting year definition changed in the reporting year?

(7.1.2.1) Change(s) in methodology, boundary, and/or reporting year definition?

Select all that apply

Yes, a change in methodology

(7.1.2.2) Details of methodology, boundary, and/or reporting year definition change(s)

*We began using AR5 global warming potentials (GWPs) with our 2023 emissions data. We also recalculated our baseline year 2005 emissions with the AR5 GWPs.
[Fixed row]*

(7.1.3) Have your organization's base year emissions and past years' emissions been recalculated as a result of any changes or errors reported in 7.1.1 and/or 7.1.2?

	Base year recalculation	Scope(s) recalculated	Past years' recalculation
	<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select all that apply</i> <input checked="" type="checkbox"/> Scope 1 <input checked="" type="checkbox"/> Scope 2, location-based <input checked="" type="checkbox"/> Scope 3	<i>Select from:</i> <input checked="" type="checkbox"/> Yes

[Fixed row]

(7.2) Select the name of the standard, protocol, or methodology you have used to collect activity data and calculate emissions.

Select all that apply

- The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (Revised Edition)
- The Greenhouse Gas Protocol: Scope 2 Guidance
- The Greenhouse Gas Protocol: Corporate Value Chain (Scope 3) Standard
- US EPA Mandatory Greenhouse Gas Reporting Rule
- US EPA Emissions & Generation Resource Integrated Database (eGRID)

(7.3) Describe your organization's approach to reporting Scope 2 emissions.

(7.3.1) Scope 2, location-based

Select from:

- We are reporting a Scope 2, location-based figure

(7.3.2) Scope 2, market-based

Select from:

We have no operations where we are able to access electricity supplier emission factors or residual emissions factors and are unable to report a Scope 2, market-based figure

(7.3.3) Comment

NiSource Scope 2 emissions are from electricity consumption at company facilities. NiSource calculates these indirect greenhouse gas emissions by obtaining annual electricity usage and applying an emission factor specific to the region where the electricity was consumed. NiSource obtains emission factors for each state of our operations from EPA's e-GRID database.

[Fixed row]

(7.4) Are there any sources (e.g. facilities, specific GHGs, activities, geographies, etc.) of Scope 1, Scope 2 or Scope 3 emissions that are within your selected reporting boundary which are not included in your disclosure?

Select from:

No

(7.5) Provide your base year and base year emissions.

	Base year end	Base year emissions (metric tons CO2e)
Scope 1	12/31/2005	19577098
Scope 2 (location-based)	12/31/2005	82575
Scope 3 category 3: Fuel-and-energy-related activities (not included in Scope 1 or 2)	12/31/2005	1236442
Scope 3 category 11: Use of sold products	12/31/2005	15159260

[Fixed row]

(7.6) What were your organization's gross global Scope 1 emissions in metric tons CO2e?

	Gross global Scope 1 emissions (metric tons CO2e)
Reporting year	5492279

[Fixed row]

(7.7) What were your organization's gross global Scope 2 emissions in metric tons CO2e?

	Gross global Scope 2, location-based emissions (metric tons CO2e)
Reporting year	59780

[Fixed row]

(7.8) Account for your organization's gross global Scope 3 emissions, disclosing and explaining any exclusions.

(7.8.3) Emissions calculation methodology

Select all that apply

Supplier-specific method

Average data method

(7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

100

(7.8.5) Please explain

This figure is for scope 3 emissions from our purchased power (1,518,257 tonnes CO₂e), gas distribution (2,146,538 tonnes CO₂e), and electric generation (880,509 tonnes CO₂e) businesses. Our purchased power that we deliver to customers is supplied by MISO, the local operator of the electric transmission grid. We use emission factors from the US EPA's eGrid database for the MISO balancing authority to calculate these emissions. For gas distribution, these are emissions from natural gas production, gathering and boosting, processing, transmission and storage for gas that we supply to customers. For electric generation, these are emissions from fuel used for electric generation (coal production, rail transportation, natural gas production, gathering and boosting, processing, transmission and storage).

(7.23.1.13) Scope 2, location-based emissions (metric tons CO2e)

1243.7

Row 5

(7.23.1.1) Subsidiary name

Columbia Gas of Virginia, Inc.

(7.23.1.2) Primary activity

Select from:

Gas utilities

(7.23.1.3) Select the unique identifier you are able to provide for this subsidiary

Select all that apply

No unique identifier

(7.23.1.12) Scope 1 emissions (metric tons CO2e)

70567.3

(7.23.1.13) Scope 2, location-based emissions (metric tons CO2e)

640.1

Row 6

(7.23.1.1) Subsidiary name

Northern Indiana Public Service Company LLC

(7.23.1.2) Primary activity

Select from:

Gas utilities

(7.23.1.3) Select the unique identifier you are able to provide for this subsidiary

Select all that apply

No unique identifier

(7.23.1.12) Scope 1 emissions (metric tons CO2e)

4801442.2

(7.23.1.13) Scope 2, location-based emissions (metric tons CO2e)

48521.5

(7.23.1.15) Comment

Includes both gas and electric operations

Row 7

(7.23.1.1) Subsidiary name

NiSource Corporate Services Company

(7.23.1.2) Primary activity

Select from:

Gas utilities

(7.23.1.3) Select the unique identifier you are able to provide for this subsidiary

Select all that apply

No unique identifier

(7.23.1.12) Scope 1 emissions (metric tons CO2e)

3007.7

(7.23.1.13) Scope 2, location-based emissions (metric tons CO2e)

3357.9

[Add row]

(7.29) What percentage of your total operational spend in the reporting year was on energy?

Select from:

More than 35% but less than or equal to 40%

(7.30) Select which energy-related activities your organization has undertaken.

	Indicate whether your organization undertook this energy-related activity in the reporting year
Consumption of fuel (excluding feedstocks)	Select from: <input checked="" type="checkbox"/> Yes

	Indicate whether your organization undertook this energy-related activity in the reporting year
Consumption of purchased or acquired electricity	Select from: <input checked="" type="checkbox"/> Yes
Consumption of purchased or acquired heat	Select from: <input checked="" type="checkbox"/> No
Consumption of purchased or acquired steam	Select from: <input checked="" type="checkbox"/> No
Consumption of purchased or acquired cooling	Select from: <input checked="" type="checkbox"/> No
Generation of electricity, heat, steam, or cooling	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(7.30.1) Report your organization's energy consumption totals (excluding feedstocks) in MWh.

Consumption of fuel (excluding feedstock)

(7.30.1.1) Heating value

Select from:

HHV (higher heating value)

(7.30.1.2) MWh from renewable sources

0

(7.30.1.3) MWh from non-renewable sources

16951856

(7.30.1.4) Total (renewable and non-renewable) MWh

16951856

Consumption of purchased or acquired electricity

(7.30.1.2) MWh from renewable sources

0

(7.30.1.3) MWh from non-renewable sources

41044

(7.30.1.4) Total (renewable and non-renewable) MWh

41044

Total energy consumption

(7.30.1.2) MWh from renewable sources

0

(7.30.1.3) MWh from non-renewable sources

16992899

(7.30.1.4) Total (renewable and non-renewable) MWh

16992899

[Fixed row]

(7.30.6) Select the applications of your organization’s consumption of fuel.

	Indicate whether your organization undertakes this fuel application
Consumption of fuel for the generation of electricity	<i>Select from:</i> <input checked="" type="checkbox"/> Yes
Consumption of fuel for the generation of heat	<i>Select from:</i> <input checked="" type="checkbox"/> Yes
Consumption of fuel for the generation of steam	<i>Select from:</i> <input checked="" type="checkbox"/> No
Consumption of fuel for the generation of cooling	<i>Select from:</i> <input checked="" type="checkbox"/> No
Consumption of fuel for co-generation or tri-generation	<i>Select from:</i> <input checked="" type="checkbox"/> No

[Fixed row]

(7.30.7) State how much fuel in MWh your organization has consumed (excluding feedstocks) by fuel type.

Sustainable biomass

(7.30.7.2) Total fuel MWh consumed by the organization

0

(7.30.7.3) MWh fuel consumed for self-generation of electricity

0

(7.30.7.4) MWh fuel consumed for self-generation of heat

0

Other biomass

(7.30.7.2) Total fuel MWh consumed by the organization

0

(7.30.7.3) MWh fuel consumed for self-generation of electricity

0

(7.30.7.4) MWh fuel consumed for self-generation of heat

0

Other renewable fuels (e.g. renewable hydrogen)

(7.30.7.2) Total fuel MWh consumed by the organization

0

(7.30.7.3) MWh fuel consumed for self-generation of electricity

0

(7.30.7.4) MWh fuel consumed for self-generation of heat

0

Coal

(7.30.7.1) Heating value

Select from:

HHV

(7.30.7.2) Total fuel MWh consumed by the organization

9854836

0

(7.30.16.6) Total electricity/heat/steam/cooling energy consumption (MWh)

6362841.00

[Fixed row]

(7.33) Does your electric utility organization have a transmission and distribution business?

Select from:

Yes

(7.33.1) Disclose the following information about your transmission and distribution business.

Row 2

(7.33.1.1) Country/area/region

Select from:

United States of America

(7.33.1.2) Voltage level

Select from:

Transmission (high voltage)

(7.33.1.4) Annual energy losses (% of annual load)

2.3

(7.33.1.5) Scope where emissions from energy losses are accounted for

Select from:

Scope 2 (location-based)

(7.33.1.6) Emissions from energy losses (metric tons CO₂e)

35107

(7.33.1.7) Length of network (km)

4690.0

Row 3

(7.33.1.1) Country/area/region

Select from:

United States of America

(7.33.1.2) Voltage level

Select from:

Distribution (low voltage)

(7.33.1.4) Annual energy losses (% of annual load)

2.3

(7.33.1.5) Scope where emissions from energy losses are accounted for

Select from:

Scope 2 (location-based)

(7.33.1.7) Length of network (km)

17557.0

[Add row]

(7.45) Describe your gross global combined Scope 1 and 2 emissions for the reporting year in metric tons CO2e per unit currency total revenue and provide any additional intensity metrics that are appropriate to your business operations.

Row 1

(7.45.1) Intensity figure

0.001

(7.45.2) Metric numerator (Gross global combined Scope 1 and 2 emissions, metric tons CO2e)

5552059

(7.45.3) Metric denominator

Select from:

- unit total revenue

(7.45.4) Metric denominator: Unit total

5505400000

(7.45.5) Scope 2 figure used

Select from:

- Location-based

(7.45.6) % change from previous year

8

(7.45.7) Direction of change

Select from:

- Decreased

(7.45.8) Reasons for change

Select all that apply

- Change in output

[Add row]

(7.46) For your electric utility activities, provide a breakdown of your Scope 1 emissions and emissions intensity relating to your total power plant capacity and generation during the reporting year by source.

Coal – hard

(7.54.3.5) End date of target for achieving net zero

12/31/2040

(7.54.3.6) Is this a science-based target?

Select from:

Yes, we consider this a science-based target, but we have not committed to seek validation of this target by the Science Based Targets initiative within the next two years

(7.54.3.8) Scopes

Select all that apply

Scope 1

Scope 2

(7.54.3.9) Greenhouse gases covered by target

Select all that apply

Carbon dioxide (CO2)

Methane (CH4)

- Nitrous oxide (N2O)
- Sulphur hexafluoride (SF6)

(7.54.3.10) Explain target coverage and identify any exclusions

Our goal of net zero greenhouse gas emissions by 2040 covers both Scope 1 and Scope 2 emissions ("Net Zero Goal"). Our Net Zero Goal builds on greenhouse gas emission reductions achieved to-date and demonstrates that continued execution of our long-term business plan will drive further greenhouse gas emission reductions. We remain on track to achieve previously announced interim greenhouse gas emission reduction targets by reducing fugitive methane emissions from main and service lines by 50 percent from 2005 levels by 2025 and reducing Scope 1 greenhouse gas emissions from company-wide operations by 90 percent from 2005 levels by 2030. We plan to achieve our Net Zero Goal primarily through continuation and enhancement of existing programs, such as retiring and replacing coal-fired electric generation with low- or zero-emission electric generation, ongoing pipe replacement and modernization programs, and deployment of advanced leak-detection technologies. In addition, we plan to advance other low- or zero-emission energy resources and technologies, such as hydrogen, renewable natural gas, and/or deployment of carbon capture and utilization technologies, if and when these become technologically and economically feasible. Carbon offsets and renewable energy credits may also be used to support achievement of our Net Zero Goal.

(7.54.3.12) Do you intend to neutralize any residual emissions with permanent carbon removals at the end of the target?

Select from:

- Yes

(7.54.3.15) Planned milestones and/or near-term investments for neutralization at the end of the target

We plan to achieve our Net Zero Goal primarily through continuation and enhancement of existing programs, such as retiring and replacing coal-fired electric generation with low- or zero-emission electric generation, ongoing pipe replacement and modernization programs, and deployment of advanced leak-detection technologies. In addition, we plan to advance other low- or zero-emission energy resources and technologies, such as hydrogen, renewable natural gas, and/or deployment of carbon capture and utilization technologies, if and when these become technologically and economically feasible. Carbon offsets and renewable energy credits may also be used to support achievement of our Net Zero Goal.

(7.54.3.17) Target status in reporting year

Select from:

- Underway

[Add row]

(7.55) Did you have emissions reduction initiatives that were active within the reporting year? Note that this can include those in the planning and/or implementation phases.

Select from:

Yes

(7.55.3) What methods do you use to drive investment in emissions reduction activities?

Row 2

(7.55.3.1) Method

Select from:

Compliance with regulatory requirements/standards

(7.55.3.2) Comment

NiSource's energy efficiency and demand-side management (DSM) programs are generally regulated by state commissions and have regular reporting requirements.

Row 3

(7.55.3.1) Method

Select from:

Dedicated budget for other emissions reduction activities

Row 4

(7.55.3.1) Method

Select from:

Dedicated budget for energy efficiency

(7.55.3.2) Comment

NiSource companies staff and budget for the execution and reporting of DSM programs.

[Add row]

(7.58) Describe your organization's efforts to reduce methane emissions from your activities.

NiSource is engaged in a multi-year effort to replace existing natural gas distribution pipes with advanced plastic pipe and protected steel. This will improve the safety and reliability of our gas distribution system and reduce methane emissions associated with leaks. We have targeted a 50% reduction in fugitive methane emissions from main and service lines by 2025, from 2005 levels, through ongoing pipe replacement and modernization programs, and deployment of advanced leak-detection technologies.

(7.74) Do you classify any of your existing goods and/or services as low-carbon products?

Select from:

Yes

(7.74.1) Provide details of your products and/or services that you classify as low-carbon products.

Row 2

(7.74.1.1) Level of aggregation

Select from:

Product or service

(7.74.1.2) Taxonomy used to classify product(s) or service(s) as low-carbon

Select from:

Other, please specify :Center for Resource Solutions (CRS) serves as the Secretariat and program administrator for the Green-e® programs and is responsible for the implementation of the Green-e® Renewable Energy Standard for Canada and the United States

(7.74.1.4) Description of product(s) or service(s)

NIPSCO's Green Power is a voluntary program that allows customers to designate a portion or all of their monthly electric usage to come from power generated by renewable energy sources, such as wind power. Customers choose to have a portion of their monthly electric usage attributed to power generated by renewable energy (e.g., wind power). NIPSCO buys renewable energy certificates (RECs) on their behalf. The incremental cost is less than 2 per month for the average home

(based on a monthly electric use of 1,000 kWh) to receive 100% of its electricity from renewable sources. This added cost is passed along to participating customers without any additional markup or financial return for NIPSCO. Non-participating customers are not responsible for additional charges associated with making this program available. Residential customers may designate 25, 50 or 100 percent of their monthly electric usage to be attributed to power generated by renewable energy sources. Commercial and industrial customers have the added flexibility to designate 5 or 10 percent of their monthly usage.

(7.74.1.5) Have you estimated the avoided emissions of this low-carbon product(s) or service(s)

Select from:

No

Row 3

(7.74.1.1) Level of aggregation

Select from:

Product or service

(7.74.1.2) Taxonomy used to classify product(s) or service(s) as low-carbon

Select from:

Other, please specify :Renewable natural gas and carbon offsets program governed by gas service tariff riders

(7.74.1.4) Description of product(s) or service(s)

Green Path is a voluntary program that allows customers to designate 25, 50 or 100 percent of monthly natural gas usage to be supplemented by a combination of renewable natural gas sources and carbon offsets to allow customers to effectively offset the carbon emissions of natural gas usage.

(7.74.1.5) Have you estimated the avoided emissions of this low-carbon product(s) or service(s)

Select from:

Yes

[Add row]

(7.79) Has your organization canceled any project-based carbon credits within the reporting year?

Select from:

No

C9. Environmental performance - Water security

(9.1) Are there any exclusions from your disclosure of water-related data?

Select from:

Yes

(9.1.1) Provide details on these exclusions.

Row 1

(9.1.1.1) Exclusion

Select from:

Business activities

(9.1.1.2) Description of exclusion

Only water-related data for NIPSCO electric generating stations are reported in this disclosure.

(9.1.1.3) Reason for exclusion

Select from:

Other, please specify

(9.1.1.8) Please explain

Water security is not a significant risk or opportunity for NiSource facilities other than the NIPSCO electric generating stations.

[Add row]

(9.2) Across all your operations, what proportion of the following water aspects are regularly measured and monitored?

Water withdrawals – total volumes

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.2) Frequency of measurement

Select from:

Daily

(9.2.3) Method of measurement

Instrumentation and estimated

(9.2.4) Please explain

Indiana Department of Natural Resources requires monitoring and reporting of significant withdrawal data.

Water withdrawals – volumes by source

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.2) Frequency of measurement

Select from:

Daily

(9.2.3) Method of measurement

Instrumentation and estimated

(9.2.4) Please explain

Water withdrawals, including groundwater, are tracked at all generating stations.

Water withdrawals quality

(9.2.1) % of sites/facilities/operations

Select from:

26-50

(9.2.4) Please explain

In order to provide the water quality for our operations, general water quality of the raw water sources is monitored and evaluated prior to additional in-house water treatment. In addition, where groundwater is used as a potable source water, the water quality is monitored in accordance with requirements from the U.S. Environmental Protection Agency as well as the Indiana Department of Environmental Management and the Department of Health.

Water discharges – total volumes

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.2) Frequency of measurement

Select from:

Daily

(9.2.4) Please explain

Discharge water volume is a required datum reported in the Clean Water Act required Discharge Monitoring Report (DMR) submitted to the Indiana Department of Environmental Management for compliance with the National Pollution Discharge Elimination System (NPDES) program.

Water discharges – volumes by destination

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.2) Frequency of measurement

Select from:

Daily

(9.2.4) Please explain

DMRs are facility specific.

Water discharges – volumes by treatment method

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.2) Frequency of measurement

Select from:

Daily

(9.2.4) Please explain

DMRs are facility specific, which utilize a single treatment approach.

Water discharge quality – by standard effluent parameters

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.2) Frequency of measurement

Select from:

Daily

(9.2.4) Please explain

All NIPSCO generating units' discharged water quality is tested in accordance with the parameters identified in the applicable NPDES permit, in accordance with the Clean Water Act, and reported through the NPDES programs DMR process.

Water discharge quality – emissions to water (nitrates, phosphates, pesticides, and/or other priority substances)

(9.2.1) % of sites/facilities/operations

Select from:

1-25

(9.2.4) Please explain

Nitrates are sampled at Schahfer Generating Station only.

Water discharge quality – temperature

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.4) Please explain

Discharge water temperature is a required datum reported in the Clean Water Act required Discharge Monitoring Report (DMR) submitted to the Indiana Department of Environmental Management for compliance with the National Pollution Discharge Elimination System (NPDES) program.

Water consumption – total volume

(9.2.1) % of sites/facilities/operations

Select from:

100%

(9.2.4) Please explain

Estimated based on the mathematical difference between the total withdrawal and discharge volumes. Engineering estimates are applied to account for loss from evaporation in the application of cooling tower technology.

Water recycled/reused

(9.2.1) % of sites/facilities/operations

Select from:

100%

The provision of fully-functioning, safely managed WASH services to all workers

(9.2.1) % of sites/facilities/operations

Select from:

100%

[Fixed row]

(9.2.2) What are the total volumes of water withdrawn, discharged, and consumed across all your operations, how do they compare to the previous reporting year, and how are they forecasted to change?

Total withdrawals

(9.2.2.1) Volume (megaliters/year)

(9.2.2.2) Comparison with previous reporting year

Select from:

Lower

(9.2.2.3) Primary reason for comparison with previous reporting year

Facility closure

(9.2.2.6) Please explain

NIPSCO is expected to retire all coal generation by 2028.

[Fixed row]

(9.2.4) Indicate whether water is withdrawn from areas with water stress, provide the volume, how it compares with the previous reporting year, and how it is forecasted to change.

(9.2.4.1) Withdrawals are from areas with water stress

Select from:

Yes

(9.2.4.2) Volume withdrawn from areas with water stress (megaliters)

33411

(9.2.4.3) Comparison with previous reporting year

Select from:

Lower

(9.2.4.4) Primary reason for comparison with previous reporting year

Select from:

Increase/decrease in business activity

(9.2.4.5) Five-year forecast

Select from:

Much lower

(9.2.4.6) Primary reason for forecast

Select from:

Facility closure

(9.2.4.7) % of total withdrawals that are withdrawn from areas with water stress

90.19

(9.2.4.8) Identification tool

Select all that apply

WRI Aqueduct

(9.2.4.9) Please explain

All of our water withdrawal and consumption in High Baseline Stress areas occurred at two coal-fired units at our R.M. Schahfer Generating Station (scheduled to retire by the end of 2025) and one coal-fired unit at our Michigan City Generating Station (scheduled to retire by the end of 2028). Thus, by the end of 2028 we will have no water withdrawal or consumption in High Baseline Stress areas. During times of acute water stress, we also coordinate with the Indiana Department of Natural Resources to minimize our impact.

[Fixed row]

(9.2.7) Provide total water withdrawal data by source.

Select from:

MWh

(9.7.1.4) Comparison with previous reporting year

Select from:

About the same

(9.7.1.5) Please explain

The numerator in this intensity calculation is water withdrawal in cubic meters, and the denominator is gross generation in MWh.

[Add row]

(9.13) Do any of your products contain substances classified as hazardous by a regulatory authority?

	Products contain hazardous substances
	Select from: <input checked="" type="checkbox"/> No

[Fixed row]

(9.14) Do you classify any of your current products and/or services as low water impact?

	Products and/or services classified as low water impact	Primary reason for not classifying any of your current products and/or services as low water impact
	Select from: <input checked="" type="checkbox"/> No, and we do not plan to address this within the next two years	Select from: <input checked="" type="checkbox"/> Important but not an immediate business priority

[Fixed row]

(9.15) Do you have any water-related targets?

Select from:

Yes

(9.15.1) Indicate whether you have targets relating to water pollution, water withdrawals, WASH, or other water-related categories.

	Target set in this category
Water pollution	Select from: <input checked="" type="checkbox"/> No, and we do not plan to within the next two years
Water withdrawals	Select from: <input checked="" type="checkbox"/> Yes
Water, Sanitation, and Hygiene (WASH) services	Select from: <input checked="" type="checkbox"/> No, and we do not plan to within the next two years
Other	Select from: <input checked="" type="checkbox"/> Yes

[Fixed row]

(9.15.2) Provide details of your water-related targets and the progress made.

Row 2

(9.15.2.1) Target reference number

Select from:

Target 1

(9.15.2.2) Target coverage

Select from:

Business division

(9.15.2.3) Category of target & Quantitative metric

Water withdrawals

Reduction in total water withdrawals

(9.15.2.4) Date target was set

12/31/2017

(9.15.2.5) End date of base year

12/31/2005

(9.15.2.6) Base year figure

119252000000

(9.15.2.7) End date of target year

12/31/2025

(9.15.2.8) Target year figure

11925200000

(9.15.2.9) Reporting year figure

9787000000

(9.15.2.10) Target status in reporting year

Select from:

Achieved

(9.15.2.11) % of target achieved relative to base year

102

(9.15.2.13) Explain target coverage and identify any exclusions

Target covers our electric generating facilities.

(9.15.2.15) Actions which contributed most to achieving or maintaining this target

Retirement of coal-fired electric generation.

(9.15.2.16) Further details of target

Figures are in gallons.

Row 3

(9.15.2.1) Target reference number

Select from:

Target 2

(9.15.2.2) Target coverage

Select from:

Business division

(9.15.2.3) Category of target & Quantitative metric

Water withdrawals

Reduction in total water withdrawals

(9.15.2.4) Date target was set

12/31/2017

(9.15.2.5) End date of base year

12/31/2005

(9.15.2.6) Base year figure

119252000000

(9.15.2.7) End date of target year

12/31/2030

(9.15.2.8) Target year figure

1192520000

(9.15.2.9) Reporting year figure

9787000000

(9.15.2.10) Target status in reporting year

Select from:

Underway

(9.15.2.11) % of target achieved relative to base year

(9.15.2.13) Explain target coverage and identify any exclusions

Target covers our electric generating facilities.

(9.15.2.14) Plan for achieving target, and progress made to the end of the reporting year

Retirement of coal-fired electric generation by the end of 2028.

(9.15.2.16) Further details of target

Figures are in gallons.

Row 4**(9.15.2.1) Target reference number**

Select from:

Target 3

(9.15.2.2) Target coverage

Select from:

Business division

(9.15.2.3) Category of target & Quantitative metric

Water use efficiency

Reduction in total water discharge

(9.15.2.4) Date target was set

12/31/2017

(9.15.2.5) End date of base year

12/31/2005

(9.15.2.6) Base year figure

110887000000

(9.15.2.7) End date of target year

12/31/2025

(9.15.2.8) Target year figure

110887000000

(9.15.2.9) Reporting year figure

6930137000

(9.15.2.10) Target status in reporting year

Select from:

Achieved

(9.15.2.11) % of target achieved relative to base year

104

(9.15.2.13) Explain target coverage and identify any exclusions

Target covers our electric generating facilities.

(9.15.2.15) Actions which contributed most to achieving or maintaining this target

Retirement of coal-fired electric generation.

(9.15.2.16) Further details of target

Figures are in gallons.

Row 5

(9.15.2.1) Target reference number

Select from:

Target 4

(9.15.2.2) Target coverage

Select from:

Business division

(9.15.2.3) Category of target & Quantitative metric

Water use efficiency

Reduction in total water discharge

(9.15.2.4) Date target was set

12/31/2017

(9.15.2.5) End date of base year

12/31/2005

(9.15.2.6) Base year figure

110887000000.0

(9.15.2.7) End date of target year

12/31/2030

(9.15.2.8) Target year figure

1108870000

(9.15.2.9) Reporting year figure

6930137000

(9.15.2.10) Target status in reporting year

Select from:

Underway

(9.15.2.11) % of target achieved relative to base year

95

(9.15.2.13) Explain target coverage and identify any exclusions

Target covers our electric generating facilities.

(9.15.2.14) Plan for achieving target, and progress made to the end of the reporting year

Retirement of coal-fired electric generation by the end of 2028.

(9.15.2.16) Further details of target

Figures are in gallons.

[Add row]

C10. Environmental performance - Plastics

(10.1) Do you have plastics-related targets, and if so what type?

	Targets in place
	<i>Select from:</i> <input checked="" type="checkbox"/> No, and we do not plan to within the next two years

[Fixed row]

C11. Environmental performance - Biodiversity

(11.2) What actions has your organization taken in the reporting year to progress your biodiversity-related commitments?

(11.2.1) Actions taken in the reporting period to progress your biodiversity-related commitments

Select from:

- Yes, we are taking actions to progress our biodiversity-related commitments

(11.2.2) Type of action taken to progress biodiversity- related commitments

Select all that apply

- Land/water protection
- Land/water management
- Education & awareness

[Fixed row]

(11.3) Does your organization use biodiversity indicators to monitor performance across its activities?

	Does your organization use indicators to monitor biodiversity performance?	Indicators used to monitor biodiversity performance
	<p>Select from:</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Yes, we use indicators 	<p>Select all that apply</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Other, please specify :See page 37 of the NiSource 2024 ESG Report, available at https://www.nisource.com/docs/librariesprovider2/nisource-documents/nisource_2024-esg_report.pdf

[Fixed row]

(11.4) Does your organization have activities located in or near to areas important for biodiversity in the reporting year?

Legally protected areas

(11.4.1) Indicate whether any of your organization's activities are located in or near to this type of area important for biodiversity

Select from:

Yes

(11.4.2) Comment

See page 34 of the NiSource 2024 ESG Report.

Key Biodiversity Areas

(11.4.1) Indicate whether any of your organization's activities are located in or near to this type of area important for biodiversity

Select from:

Yes

(11.4.2) Comment

See page 34 of the NiSource 2024 ESG Report, available at https://www.nisource.com/docs/librariesprovider2/nisource-documents/nisource_2024-esg_report.pdf.

Other areas important for biodiversity

(11.4.1) Indicate whether any of your organization's activities are located in or near to this type of area important for biodiversity

Select from:

Yes

(11.4.2) Comment

See page 34 of the NiSource 2024 ESG Report, available at https://www.nisource.com/docs/librariesprovider2/nisource-documents/nisource_2024-esg_report.pdf.
[Fixed row]

(11.4.1) Provide details of your organization’s activities in the reporting year located in or near to areas important for biodiversity.

Row 1

(11.4.1.11) Explain how your organization’s activities located in or near to the selected area could negatively affect biodiversity, how this was assessed, and describe any mitigation measures implemented

See pages 34-37 of the NiSource 2024 ESG Report, available at https://www.nisource.com/docs/librariesprovider2/nisource-documents/nisource_2024-esg_report.pdf.
[Add row]

C13. Further information & sign off

(13.1) Indicate if any environmental information included in your CDP response (not already reported in 7.9.1/2/3, 8.9.1/2/3/4, and 9.3.2) is verified and/or assured by a third party?

	Other environmental information included in your CDP response is verified and/or assured by a third party
	<i>Select from:</i> <input checked="" type="checkbox"/> No, and we do not plan to obtain third-party verification/assurance of other environmental information in our CDP response within the next two years

[Fixed row]

(13.4) Please indicate your consent for CDP to share contact details with the Pacific Institute to support content for its Water Action Hub website.

Select from:

No
